Raphael Langham : 250 Years of Convention and Contention: A History of the Board of Deputies of British Jews, 1760-2010 before purchasing it in order to gauge whether or not it would be worth my time, and all praised 250 Years of Convention and Contention: A History of the Board of Deputies of British Jews, 1760-2010:

In November 1760, the leaders of the Bevis Marks synagogue in London established a committee to consider how the synagogue should pay homage to King George III, who had just ascended the throne. This committee evolved into what we know today as the Board of Deputies, the representative body of Jews in Britain. This is the first

comprehensive history of the Board of Deputies. The history of the Board is about disputes, controversies, factions, responding to crises, protecting Jewish religious observance, and providing the Jewish community with direction and leadership. Author Raphael Langham covers issues such as emancipation, Sunday trading, marriage and divorce laws, combating anti-semitism and fascism, pogroms in Russia, the rise of Zionism, the Holocaust, and Israel. The book concludes by looking back over the last 250 years, thus enabling the reader to answer the question 'Has the Board been good for the Jews?' The book will appeal to the general reader, as well as those interested in Jewish history.
