**Alden Todd : Abandoned: The Story of the Greely Arctic Expedition 1881-1884** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Abandoned: The Story of the Greely Arctic Expedition 1881-1884:

0 of 0 people found the following review helpful. Excellent story of survival and challenges of exploring and being ...By Dennis Williams Excellent story of survival and challenges of exploring and being stranded while sailing in the arctic region in the 1920s. The hardships endured by this expedition were beyond anything we would ever like to find ourselves in. Enjoyed reading the story and the book pulled many key excerpts from diary entries from all the members of

the expedition. Worth the read...0 of 0 people found the following review helpful. Straight forward reading with great endingBy KenpThe details of the day to day life on the ice are great. What a really enjoyed is the aftermath of the accounts and the public reactions to the three year voyage. A classic.0 of 0 people found the following review helpful. OutstandingBy CustomerTodd's narrative makes you feel a part of the expedition...including the anguish and despair of the dying days. A page turner that kept me up till all hours with an almost desperate need to know the conclusion. A bittersweet story of the best and worst of American military leadership.

Whether the reader is a student of history or someone unacquainted with Adolphus Greely's ill-fated expedition into the Arctic during the early 1880s, Alden Todd's book will prove interesting and informative.About the Author
