**Jose C. Curto : Africa and the Americas: Interconnections During the Slave Trade** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Africa and the Americas: Interconnections During the Slave Trade:

Africa and the Americas is a collection of recent scholarly work addressing pertinent themes and using innovative

approaches and methodologies to advance research on the "Atlantic World" by demonstrating how the slave trade facilitated the creation of one world where before there had been many. The volume includes several leading scholars from Brazil, North America and Africa. Because of its trans-Atlantic, comparative and inter-disciplinary perspective, it will appeal to scholars and students alike.
