But there are many more very important founding fathers we need to remember. These books really tell us about the forgotten ones and help us appreciate the ones we never got to know. Great

contributions from these forgotten men. And the books are interestingly written. Add the entire series to your library. 1 of 1 people found the following review helpful. A good read

The book was a good read on a man who has been forgotten by history. It was by no means hard to read. If there is one thing that might be complained of, it would be that the book could have been more in depth.

Loved this book.

Before his death in 1832, Charles Carroll of Carrollton - the last living signer of the Declaration of Independence - was widely regarded as one of the most important founders. This is his biography.
