Not bad for an educative assignment.By OliviaGI am not a huge history buff, but when I got assigned to read this book for a college class, I was not too disappointed. Kind of interesting and puts a new perspective on history lessons.0 of 0 people found the following review helpful. Quality good, information ok.By Jeff WoodMy book was in pretty good shape. I rented it and it was everything I needed. As far as the information goes, I think the author was severely biased in some ways, especially towards the end, but its

written in an engaging way. 4 of 4 people found the following review helpful. Pleasantly Surprised By John Hickey So this was the required text for my History class: US History from 1877. It's a survey class so we don't delve too deep into any one topic, neither does the text, which I appreciate because there is little to filter through and not a lot to skim over. I'm about 6 weeks into the course, and although I think having a really great professor has certainly influenced me, the text is not simply names and dates kind of text book. It appears a lot of time and effort was put into making this text a clear and honest telling of the story of America. As far as a text book goes, I'm impressed.
