Really good information on Karaite Judaism!By Mike LThis books is part history, part theology and part reference guide concerning Karaite customs and practices.It was really interesting to understand the migration of Karaites from the Middle-East to Western Asia and Eastern Europe.I would like to find more information about the people who migrated to Eastern Europe.

The first introduction to Karaite history, practice, thought, and custom in the English language. An ideal book for anyone interested in Karaite Judaism as a living religion, from the perspective of an insider.
