Craig A. Evans : Ancient Texts for New Testament Studies: A Guide to the Background Literature before purchasing it in order to gage whether or not it would be worth my time, and all praised Ancient Texts for New Testament Studies: A Guide to the Background Literature:

0 of 0 people found the following review helpful. Shows References That Mention, Expound On Or Discuss Nearly Every Verse in the New TestamentBy David SorensenOne reviewer said it already - this book shows references that

mention, expound on or discuss nearly every verse in the New Testament. This alone is worth the price of the book. If you are interested in what pseudoepigraphical, apocryphal and the early fathers in early Christianity have to say about the New Testament plus a summary description of what many of those sources contain this would be THE book. Besides - Craig A. Evans is a WONDERFUL New Testament scholar. 0 of 0 people found the following review helpful. Five Stars By Rendao excellent 0 of 0 people found the following review helpful. Add this one to your resource library By bob lewis Awesome resource

One of the daunting challenges facing the New Testament interpreter is achieving familiarity with the immense corpus of related literatures. Scholars and students alike must have a fundamental understanding of the content, provenance, and utility for New Testament interpretation of a wide range of pagan, Jewish, and diversely Christian documents. This thoroughly revised and significantly expanded edition of *Noncanonical Writings and New Testament Interpretation* examines a vast range of ancient literature, masterfully distilling details of date, language, text, and translation into an eminently usable handbook. Craig Evans evaluates the materials' relevance for interpreting the New Testament and provides essential biographies.

From the Back Cover "Evans's introduction is more than a map to terra incognita; it is a helpful companion for all who study Judaism and Christianity before the establishment of the Holy Roman Empire."--James H. Charlesworth, George L. Collord Professor of New Testament Language and Literature, Princeton Theological Seminary "As someone who has worked in a great number of fields cognate to New Testament studies, Craig Evans is eminently qualified to produce a guide to these various adjacent areas. . . . [He] has clearly done an excellent job of covering a vast amount of material. Each work or corpus is introduced succinctly and clearly and is accompanied by bibliographies of editions, translations, and well-chosen secondary literature. . . . This very comprehensive and clearly written book . . . will be extremely useful to a large number of students and scholars."--Simon Gathercole, *Journal of Theological Studies* "Many doctoral students would have loved to have this reference work on their desks during graduate studies. All of the standard exegetical questions (date, provenance, author, historical situation) are answered in a few enlightened sentences. . . . Evans's book is a success, providing vast amounts of information in a minuscule space with extensive leads for further study. His choice of bibliography to continue research is lean and pointed. The very scope of his introduction to Israelite and rabbinic literature make[s] this book worthy of a place on any shelf."--Jerome H. Neyrey, *Journal of Biblical Literature* "This volume encompasses an amazing amount of material, and successfully orients readers to the texts under consideration. It is a major revision and expansion of the author's earlier volume *Noncanonical Writings and New Testament Interpretation*. . . . Even for those that possess the earlier edition this revised form is worth purchasing for the up-to-date bibliographical references, yet it also provides a more comprehensive coverage of texts. This is an important reference work that should become a standard volume in libraries and on the shelves of scholars and students alike."--Paul Foster, *Expository Times*

About the Author Craig A. Evans (PhD, Claremont Graduate University) is John Bisagno Distinguished Professor of Christian Origins at Houston Baptist University in Houston, Texas. He is a frequent contributor to scholarly journals and the author or editor of numerous publications.
