The author looked deep into past records to find the information the book talks about. Instead of guess work he has specific accounts and lists of the types of armor and weapons used. A very good resource, the pictures were cool too!0 of 0 people found the following review helpful. A must for a historian or a collector.By Continental SoldierAnyone into colonial american arms and armor need this book. Glad I found this out of print book.0 of 0 people found the following review helpful. Five StarsBy CaptLiberatorA famous reference book on the subject. Lots of pictures and comentary

Well-written, carefully documented work, considered the best single-volume survey of the subject, covers two and a half centuries of firearms, ammunition, edged weapons, and armor and presents a vital picture of military life in early America. Over 300 illustrations.
