**S.D. Goitein : Jews and Arabs: A Concise History of Their Social and Cultural Relations (Jewish, Judaism)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Jews and Arabs: A Concise History of Their Social and Cultural Relations (Jewish, Judaism):

0 of 0 people found the following review helpful. WOWBy Rev. Elliotthe material was new to me-the author is known to be fabulous and he lives up to the reputation--the facts are eye opening and clear0 of 1 people found the following review helpful. Five StarsBy Aldo C. MarturanoNot reallt interesting tho!0 of 0 people found the following review helpful. Good basic textBy zzz05An interesting detailed view of an interesting subject; how Judaism and Islam (mainly, despite the title) shaped each other during the period that Islam was undergoing its initial expansion and Judaism was changing from the Temple based religion of an agricultural nation to a diaspora religion of a dispersed nation cut off from the land.The book's author writes from a more Jewish point of view, and the book was written originally in 1955 and updated in 1964 so it predates not just the Arab Spring and its aftermath, but also the Iraq War, the intifadas, and even the 1967 War; not being an expert myself I can't say how much that might affect the writing, if any.

This fascinating history by an eminent scholar explores the relationship between Jews and Arabs, from their beginnings 3,000 years ago into the 1970s. Although originally written in 1954, it was revised in 1974 to extend its reach in the aftermath of the 1973 Yom Kippur War. The account remains current in its outlook because of the focus on social and cultural contacts as opposed to political and military issues. Its long-range examination of the reciprocal influence between these two peoples provides many valuable insights into the present-day impasse in their relations.Jews and Arabs encompasses numerous subjects of historical and contemporary relevance: the myth of the so-called Semitic races; the Jewish tradition in Islam; the actual and legal position of Jews under Arabic Islam; the rise of Jewish philosophy under Islamic influence; Jewish and Islamic mysticism and poetry; and law and ritual. Author S. D. Goitein was the first professor of Islamic studies at Jerusalem's Hebrew University, and this study reflects his 30 years of experience in the field, which includes surveys of Muslim religious literature, Oriental Jewish communities, and medieval Egyptian documents. Erudite and well written, this volume is indispensable to anyone seeking a deeper understanding of the complexities of the Arab-Jewish relationship.
