Norman Solomon : Judaism: A Very Short Introduction (Very Short Introductions) before purchasing it in order to gage whether or not it would be worth my time, and all praised Judaism: A Very Short Introduction (Very Short Introductions):

0 of 0 people found the following review helpful. Pretty good. It focused quite a bit on comparisons ...By LawyerLady Pretty good. It focused quite a bit on comparisons to Christianity which I could have done without. I was more interested in Judaism itself. 0 of 0 people found the following review helpful. Wonderful positioning of Jewish

ethical, and spiritualBy RexbunwcWonderful positioning of Jewish Ethics and spirituality through the generations. From the earliest recordings of theology religion and rational religion thJewish thoughts are beautifully documented.0 of 0 people found the following review helpful. Great introductionBy Adam D. Parchen RasmussenThis is a great introduction to Judaism, covering history, beliefs, practices, personalities, and modern issues. It only takes 2 or 3 hours to read and acquire great knowledge of Judaism!

Norman Solomon's succinct book is an ideal introduction to Judaism as a religion and way of life. Demonstrating the diverse nature and ethnic origin of Jewish people, Solomon explores how the religion has developed in the 2,000 years since the days of the Bible. This Very Short Introduction starts by outlining the basics of practical Judaism, including: festivals, prayers, customs, and various sects - and goes on to consider how Judaism has responded to, and dealt with, a number of key issues and debates, including the impact of the Holocaust and the establishment of the State of Israel. In this new edition, Solomon considers issues of contemporary Judaism in the 21st century, incorporating new material on the relationship between the Muslim faith and Judaism, the rise of Zohar and Kabala, and considers how the faith deals with issues such as homosexuality and gay marriage.ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

"Throughout Solomon's Judaism there is a freshness of approach which will make it interesting to those who already know something about Judaism. The conversational style will also make it valuable for beginners." --Marcus Braybrooke, Church Times 21/01/1997"Just as its name implies, this series features concise works that aim to give a crisp insight into otherwise complicated topics ... complicated subjects are condensed and made simple, to whet the appetite or provide just enough material for those with a casual interest." --Bournemouth Evening Echo 11/03/1997"Norman Solomon has achieved the near impossible with his enlightened Very Short Introduction to Judaism. He manages to keep the reader engaged, never patronizes, assumes little knowledge but a keen mind, and takes us through Jewish life and history with such gusto that one feels enlivened, rather than exhausted, at the end." --Rabbi Julia Neuberger"A magnificent achievement. Dr Solomon's treatment, fresh, very readable, witty and stimulating, will delight everyone interested in religion in the modern world." --Louis Jacobs, University of Lancaster"This book will serve a very useful purpose indeed. I'll use it myself to discuss, to teach, agree with, and disagree with, in the Jewish manner!" --Rabbi Lionel BlueAbout the AuthorNorman Solomon is now retired, but was a Fellow in Modern Jewish Thought at the Oxford Centre for Hebrew and Jewish Studies, and is affiliated to the Faculty of Oriental Studies at Oxford University. He is the author of Historical Dictionary of Judaism, 2nd edition (Scarecrow Press Inc, 2006).
