FisherI spent months planning our educational field trip along the trail, and purchased nearly all of the LC trail books. This is the one I marked up and used the most. I loved that it has the dates on the map of where they camped. If you are trying to pick and choose books for planning your trip, make sure this is one of them.0 of 0 people found the following review helpful. Good readBy G. ScorupI've really enjoyed reading this book. It also has great maps that can be followed.1 of 1 people found the following review helpful. Astounding pioneering adventureBy OmarVery handy if you are researching, or merely interested in the history of opening the west. Very interesting to me indeed.

Lewis and Clark Trail Guide featuring condensed daily journal entries along with Historic Trail Maps from the U.S.
