Ralph Ellis : Mary Magdalene, Princess of Orange: Mary in Provence, France (King Jesus Trilogy) (Volume 5) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mary Magdalene, Princess of Orange: Mary in Provence, France (King Jesus Trilogy) (Volume 5):

5 of 5 people found the following review helpful. Goes off topicBy CaradocFirst half of the book is Ellis' usual insightful analysis of the Gospel story. He traces the arrival of Mary's entourage and the unique role of Orange. But

then he lurches into a tirade against Islam, liberalism, and climate change that just goes on and on with no apparent connection to Mary Magdalene. I'd read a political book of his if he published it -- he seems smart and well read -- but I resent having it smuggled into the Jesus trilogy. 3 of 3 people found the following review helpful. InterestingBy Laura GreenI have family ties to the Orange family and loved the book on kindle until I got to the 75% area. When there's nothing but the history of Muslims. I think that could be better off in a completely separate book. I would have rather seen the history of Orange been taken to where that family line is today. Other than that love all the other books. 2 of 2 people found the following review helpful. What Happen To Mary Magdalene?By SummerI ordered this book after listening to Mr. Ellis speak on a talk show over the radio. I was very excited to read something factual about Mary Magdalene but out of 296 pages, only 34 pages mentioned her. I don't understand why this book had Mary Magdalene for the title. I lost interest in the rest of the book because it had nothing to do with Mary. I felt like I was given a small appetizer but the main entree never arrived.

New revised and expanded 2015 edition. ** Mary Magdalene in Provence, France ** Ralph Ellis follows the trail of mythology and reveals compelling circumstantial evidence that Mary Magdalene did travel to France, and that her presence there has left its mark on the history of the region. Ralph then presents further information suggesting that the legacy of Mary Magdalene in Provence was bequeathed upon the city of Orange in southern France - the city that was central to the Royal Dutch House of Orange, and thus central to the entire Reformation and Enlightenment movement. The book then goes on to explore the Orange Enlightenment and the Age of Reason, the twin religious reforms that created the modern rational and technical world that we live in today. But this era of rationality and reason is now threatened by forces of darkness that seek to extinguish the gains of the Enlightenment. Will the twin fundamentalist forces of Environmentalism and Islam take us back to the Dark Ages, and into a new era of fear, ignorance and oppression? In this section, Ralph Ellis tackles some ancient and modern taboos with his characteristic hard-hitting style. Each and every politically-correct stone is overturned, in this robust defence of the intellectual freedoms and scientific rationality that underpinned the Enlightenment Era. An addition to the 'King Jesus Trilogy'. Follows on from 'Cleopatra to Christ'. v12.2
