**Jordan Maxwell : Matrix of Power:How the World Has Been Controlled By Powerful People Without Your Knowledge** before purchasing it in order to gage whether or not it would be worth my time, and all praised Matrix of Power:How the World Has Been Controlled By Powerful People Without Your Knowledge:

2 of 2 people found the following review helpful. Read this book!  
By lichen  
The pagan-Egyptian roots of all the major religions are traced back to solar or sun worship in this book. Symbols of religion, masonry, government, on the dollar bill, explained. Religion and government were once one and the same, are they still? And what the heck is up with all the secret societies that appear to have control over government and politics? Why have so many U.S. presidents been masons? Has the U.S. become a corporation and not a country?

By Jolene P Duff  
I like it and read it straight through, it's a quick read and an interesting one... lead me to the Manly P. Hall books which I believe a lot of this information originated from however, Jordan Maxwell lays it out for a quick read and anyone can grasp his meaning...

By Abe  
If you're already familiar with Jordan's work, then this would be a great read for you. There are a lot of familiar topics such as secret societies, the fact that all of the problems that we see with the world, may very well be going perfectly according to plan from some people's point of view. If you've seen most of his videos, then there's not much new information to find here, but if you haven't paid to watch them, why not support his work by buying the book anyway.  
If you're not already familiar with Jordan's work, then get ready for some homework! A lot of the stuff that he says might cause you to say "no-way" when he talks about politics, religion and government. Your best bet is to take notes and then do your own independent research and then make up your mind. One issue I noticed is that there's a big difference between reading his work and hearing him talk about it. I think there's some important information that gets lost in the written form when compared to his videos. Seeing him give a presentation you can pick up on his emphasis and pronunciation of certain words that you might not notice by just reading it.  
I highly recommend this book and I think it would be great if he offered an audiobook version at some point read by him.

Jordan Maxwell is considered to be the world's foremost authority on ancient religions and modern conspiracies. His work on the true meaning of symbols, logos, and company insignias has also fascinated audiences around the world for years. He grew up in a family that had high-ranking insiders in international politics and religion, so had access to behind-the-scenes information that few people could imagine during his early years. This intrigued him, and set him off on a lifetime of investigation. This book is the result of his many years of investigation. Who really runs the world? Who controls the money, the politics, and almost every facet of life without you knowing a thing about it? Is such a thing possible? Explore this fascinating subject with a man who has devoted a lifetime of study to uncovering our "hidden masters." He has made countless radio and TV appearances including three CBS television specials, and has numerous videos of his work available.

About the Author  
Jordan Maxwell has appeared on three CBS TV specials and over 1000 radio shows. He has been studying behind-the-scenes, little known, powerful influences on our society and our lives since 1959 and has an enormous world-wide following.
