Professionally Translated Primary Source Historical Data By Brintkt This is an excellent source of primary historical data covering medieval Iberia, with documents and poems translated by some of the best (Nirenberg, O'Callaghan, Bisson, etc.). If studying medieval Iberian history, this is a must for references unless you are fluent in Arabic, Catalan, Latin, Hebrew, Castilian, Galician-Portuguese, Portuguese, Aljamiado, and Italian. The surrender treaties contained here are very important, and when combined with the information that Dr. Brian Catlos provides in his work, "Muslims of Latin Christendom, ca. 1050-1614", and that of Dr. Isabel O'Connor's "The Forgotten Community - The Mudejar Aljama of Xativa, 1240-1327", provide insight in the aftermath as to why - though not themselves entirely faultless - the Mudejar rebelled in the late thirteenth and fifteenth centuries when under Christian control. Highly recommended. 1 of 1 people found the following review helpful. Even if you only love medieval studies a tiny bit, you need this book... By Christina Source. Texts. ....an absolute treasure. These are readings I will return to again and again in my historical studies. 4 of 6 people found the following review helpful. A must for anyone studying the history of Islam in ... By Apologia A must for anyone studying the history of Islamic occupation in Spain. For some historians, medieval Iberian society was one marked by peaceful coexistence and cross-cultural fertilization; others have sketched a harsher picture of Muslims and Christians engaged in an ongoing contest for political, religious, and economic advantage culminating in the fall of Muslim Granada and the expulsion of the Jews in the late fifteenth century. The reality that emerges in Medieval Iberia is more nuanced than either of these scenarios can comprehend. Now in an expanded, second edition, this monumental collection offers unparalleled access to the multicultural complexity of the lands that would become modern Portugal and Spain. The documents collected in Medieval Iberia date mostly from the eighth through the fifteenth centuries and have been translated from Latin, Arabic, Hebrew, Judeo-Arabic, Castilian, Catalan, and Portuguese by many of the most eminent scholars in the field of Iberian studies. Nearly one quarter of this edition is new, including visual materials and increased coverage of Jewish and Muslim affairs, as well as more sources pertaining to women, social and economic history, and domestic life. This primary source material ranges widely across historical chronicles, poetry, and legal and religious sources, and each is accompanied by a brief introduction placing the text in its historical and cultural setting. Arranged chronologically, the documents are also keyed so as to be accessible to readers interested in specific topics such as urban life, the politics of the royal courts, interfaith relations, or women, marriage, and the family.

Praise for the first edition: "With the assistance of a large team of acknowledged experts, Constable has succeeded in assembling a distinguished miscellany of unusual interest which deserves to be warmly and widely welcomed." *History Today* "An impressive collection of sources which should prove of great interest to specialist and nonspecialist alike." *English Historical Language Notes* Text: English (translation) About the Author Olivia Remie Constable is Professor of Medieval History and the Robert M.
