before purchasing it in order to gage whether or not it would be worth my time, and all praised Thomas Aquinass

"Summa theologiae": A Biography (Lives of Great Religious Books):

This concise book tells the story of the most important theological work of the Middle Ages, the vast *Summa theologiae* of Thomas Aquinas, which holds a unique place in Western religion and philosophy. Written between 1266 and 1273, the *Summa* was conceived by Aquinas as an instructional guide for teachers and novices and a compendium of all the approved teachings of the Catholic Church. It synthesizes an astonishing range of scholarship, covering hundreds of topics and containing more than a million and a half words and was still unfinished at the time of Aquinas's death. Here, Bernard McGinn, one of today's most acclaimed scholars of medieval Christianity, vividly describes the world that shaped Aquinas, then turns to the Dominican friar's life and career, examining Aquinas's reasons for writing his masterpiece, its subject matter, and the novel way he organized it. McGinn gives readers a brief tour of the *Summa* itself, and then discusses its reception over the past seven hundred years. He looks at the influence of the *Summa* on such giants of medieval Christendom as Meister Eckhart, its ridicule during the Enlightenment, the rise and fall of Neothomism in the nineteenth and twentieth centuries, the role of the *Summa* in the post-Vatican II church, and the book's enduring relevance today. Tracing the remarkable life of this iconic work, McGinn's wide-ranging account provides insight into Aquinas's own understanding of the *Summa* as a communication of the theological wisdom that has been given to humanity in revelation.
