R.M. Patterson : Trail to the Interior (Rm Patterson Collection) before purchasing it in order to gage whether or not it would be worth my time, and all praised Trail to the Interior (Rm Patterson Collection):

"Trail to the Interior" gives readers a glimpse into days past of truly rugged and wild country, along with those who were ambitious enough to attempt to make their living from the land. Patterson introduces us to many memorable characters and their stories - miners, traders, hunters, businessmen. Their stories include amazing encounters with wild animals and great tales of

human willpower. Those interested in the history of the area will greatly enjoy this book from a very knowledgeable author, however those looking for a gripping tale of adventure may be disappointed. 2 of 2 people found the following review helpful. A splendid journey
By Occasional Critic
I bought this book on a recent trip to Jasper and R.M. Patterson became my companion for the next week -- or rather, I became his. It is hard for me to describe just how captivating I found his journey, the land he trekked through and R.M. himself. He truly goes on my list of "people I wish I had the opportunity to have known." When I finished the book, I turned to my wife and said, "I feel as if I've lost a friend." Remarkable man, remarkable journey, remarkable book.

By Robert Dewey
A close to a first person account of life and hardships of Cassiar and Klondike gold rush, the gold seekers, and the early explorers that blazed the trails that preceded them. Wonderful story of the Stikine River route used to access the gold fields.

Reliving the adventures of past explorers. Trail to the Interior is R. M. Patterson's rich account of exploration and personal adventure in the Cassiar district of British Columbia. The trail is the historic track from Wrangell, Alaska, along the Stikine and Dease rivers and across the height of the land into the valleys of the Liard and the Mackenzie. Explorers and traders of the Hudson's Bay Company and the Russian American Company had ventured this river route, and Raymond Patterson followed in their footsteps.
