Marlene L. Daut : Tropics of Haiti: Race and the Literary History of the Haitian Revolution in the Atlantic World, 1789-1865 (Liverpool Studies in International Slavery LUP) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tropics of Haiti: Race and the Literary History of the Haitian

Revolution in the Atlantic World, 1789-1865 (Liverpool Studies in International Slavery LUP):

0 of 0 people found the following review helpful. Five StarsBy CustomerLoved it , great read

Groundbreaking and ambitious, expressively written and expertly researched, *Tropics of Haiti* creates a new canon of historical Haitian literary and cultural materials, and establishes the author as a scholar of outstanding import in studies of the African diaspora in Western modernity. -- Professor Deborah Jenson
The body of literature that Daut covers is vast: memoirs, pamphlets, tracts, and early histories as well as conventional literary writings. 'Tropics of Haiti' is a major intervention, offering the first exhaustive study of the transatlantic print culture of the Haitian Revolution. -- Anna Brickhouse, Associate Professor of English and American Studies
Marlene Daut's *Tropics of Haiti* has an impressive scope, offering a persuasive argument about how 19th-century historical writing about Haiti contests many established narratives of contemporary Haitian revolutionary historiography. This book, brilliantly written and well researched, proposes an unprecedented and nuanced understanding of race issues and the Haitian Revolution. -- Daniel Desormeaux
