Steve Wiegand : U.S. History For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised U.S. History For Dummies:

13 of 13 people found the following review helpful. Comprehensive yet easy-to-read
By Maude
Growing up in a different country and now living in the United States, I wanted to read a comprehensive yet easy-to-read book about U.S. history. This book fitted the bill nicely. One chapter a day before bedtime was the perfect dose.

By Lauren
So far, I'm enjoying the book. I've only read about 100 pages but need to say that this book is not for dummies. I was hoping for U.S. history put simply for people who honestly struggle with comprehension and big words (me). . . and that is not what this book is. I don't understand how people can think this book is an easy read. It takes me forever to get through each chapter 1) because I'm spacey and 2) because I have to look up the definitions to a bunch of words that people don't actually use. It's frustrating because when I do look up most of the words, the author could have easily written "he gave a long, aggressive speech" instead of saying "he gave a

harangue." Maybe not everyone would agree with me, but it seems unnecessary and contradicting. Other than that, I got this book because I could never pay attention to any of my history classes growing up. It's impressive and concerning that I passed with how much I didn't know (which I realized after reading about the revolution in this book). Again, I am frustrated about the big words, but my husband and Google help me understand and I do feel more confident and interested in basic history now. Looking forward to the rest!

Great book for brushing up on your history knowledge or learning something you may have missed back when. Also great for looking up specific facts of history when in a crunch or debate. It's almost like using a cliff notes book, but with more detail.

Ace your next history test with this concise, easy-to-read guide *U.S. History for Dummies, 3rd Edition* fills the need to improve high school proficiency in history by providing a complete history of the United States, presented in an accessible, reader-friendly format designed to engage students while reinforcing lessons learned in class. The National Assessment of Educational Progress 2011 report showed that only 12% of high school seniors in the U.S. perform at a "proficient" level in history. This, coupled with the fact that U.S. History courses and AP exams have been redesigned to remedy the situation, means that many students and parents are in need of a supplemental study guide. Award-winning political journalist and history writer Steve Wiegand guides you through the events that shaped our nation, from pre-Columbian civilizations to the 21st century. The explorers, the wars, the leaders, and the eras are all fully explored and explained, demonstrating how the past influences the future. From the Boston Tea Party to the current Tea Party, the updated 3rd edition includes information about events that have occurred since the previous edition's 2009 release. New coverage includes: Recession recovery, including federal efforts, unemployment, and the widening class divide The rise of the extreme right and the bitter divisions between political parties and geographic regions Seeking the balance between superpower and domestic caretaker The impact of social media, government surveillance, and cyber crime Not all history is old news, and what happened yesterday affects us all today. It is vitally important that all U.S. citizens are well-versed in the building of our nation, and remain aware of current events. For students and parents wondering what they've missed, *U.S. History for Dummies, 3rd Edition* unlocks the door to the past and the future.

From the Back Cover
Learn: To appreciate the people, events, and places that shaped our nation
The most controversial occurrences of the modern U.S. times
The names and dates you need to know to score higher on your next U.S. History Exam
The easy way to score higher in U.S. History
U.S. History For Dummies, 3rd Edition guides you through the events that shaped our nation, from the Boston Tea Party to the current Tea Party, and everything in between. For students looking to ace their next history exam, or anyone who wants to brush up on U.S. history, this easy-to-follow guide covers the wars, leaders, and eras that influenced where we are now, as well as and where we were headed. They're coming to America get to know the first-known settlers on American soil, the first non-Native Americans to explore the New World, and the first efforts of Europeans to create an actual settlement in America You say you want a revolution meet some of the most influential people in the early days of the United States and examine wars fought against pirates, England, Native Americans, and Mexico TV, Elvis, and reds under the bed take a look at the Cold War and how a booming economy, a move to the burbs, and the invention of television shaped American life The new face of America explore one of the most controversial presidential elections in U.S. history, the biggest terrorist attack in modern times, the worst economic crisis since the Great Depression, and more Open the book and find: Interesting Americans, from political figures to national treasures The gold rush and industrial development The impact of the World Wars Causes and consequences of the Great Depression Life in America from Camelot to Watergate A look at how social media and technology are shaping America Ten events that helped define American culture About the Author Steve Wiegand, an award-winning political journalist and history writer for more than three decades, has been a reporter and columnist for the San Diego Evening Tribune, San Francisco Chronicle, and Sacramento Bee. He has authored or coauthored a half-dozen books on world and U.S. history.
