Catherine Besteman : Unraveling Somalia: Race, Class, and the Legacy of Slavery (The Ethnography of Political Violence) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Unraveling Somalia: Race, Class, and the Legacy of Slavery (The Ethnography of Political Violence):

0 of 1 people found the following review helpful. Wonderful! By Huynh It arrives real quick, n on time for my project.

It was a great experience reading the book and understanding the class system in Somalia.

In 1991 the Somali state collapsed. Once heralded as the only true nation-state in Africa, the Somalia of the 1990s suffered brutal internecine warfare. At the same time a politically created famine caused the deaths of a half a million people and the flight of a million refugees. During the civil war, scholarly and popular analyses explained Somalia's disintegration as the result of ancestral hatreds played out in warfare between various clans and subclans. In *Unraveling Somalia*, Catherine Besteman challenges this view and argues that the actual pattern of violence inflicted disproportionately on rural southerners contradicts the prevailing model of ethnic homogeneity and clan opposition. She contends that the dissolution of the Somali nation-state can be understood only by recognizing that over the past century and a half there emerged in Somalia a social order based on principles other than simple clan organization: a social order deeply stratified on the basis of race, status, class, region, and language.

"Besteman's well-written and important book is a fine example of how careful scholarship can expose the realities behind widely held beliefs." *Choice*
About the Author: Catherine Besteman is the Francis F. Bartlett and Ruth K. Bartlett Professor of Anthropology at Colby College.
