enjoying all of Bill Markley's books and being very interested in Lewis and Clark. It was natural that this would be my next Markley book. Great style, you can imagine yourself on the trip. I liked the description of the discoveries they made. and the way they went about dealing with Native bands. Many a explorer have found out that only one thing could cause an attack, and lost their life because of it...Lewis and Clark are proven good leaders, and anticipate all problems. I also wanted to learn more about the men and this was accomplished by Bill. Now I want to kayak the river with Bill. 2 of 2 people found the following review helpful. Markley is always entertaining

Any book by Bill Markley will entertain you, as well as inform you. He writes what he knows and does excellent research. You won't be disappointed in this look at the Corps of Discovery as they start out on their expedition, and whip their team into shape.

By Andrew Kightlinger
I have yet to read this book, but Dakota Epic is still one of the better "on-the-set" books I've ever read! I'm sure this book lives up to Dakota Epic is style and substance.

Lewis and Clark's Corps of Discovery expedition conjures up images of high adventure. Up the Missouri River with Lewis and Clark tells of the beginning stages of the United States' first overland expedition to the Pacific Ocean. The men had to contend with shifting sandbars, treacherous currents, submerged trees, mosquitoes, rattlesnakes, wicked weather, disease, and unpredictable new people. Meet the men of the expedition-deserters, drunks, sergeants, and hunters. See how the first four months of their journey transforms a loose group of individuals into Clark's Band of Brothers."Bill Markley has a wonderful talent for writing nonfiction with just a twist of humor. Though he takes his facts from the journals of Lewis, Clark, and other expedition members, his own commentary emerges."-Pat Decker Nipper, Author of Love on the Lewis and Clark Trail
"You will enjoy reading Bill Markley's description of Lewis Clark's expedition. He knows the stories, and shares with us a clear view of the expedition's journey. His book helps his readers better understand the Corps of Discovery's many and diverse encounters on the Missouri River."-Bill Stevens, President, Encounters On the Prairie, Central South Dakota Chapter of the Lewis and Clark Trail Heritage Foundation
