Herbert J. Storing : What the Anti-Federalists Were For: The Political Thought of the Opponents of the Constitution before purchasing it in order to gage whether or not it would be worth my time, and all praised What the Anti-Federalists Were For: The Political Thought of the Opponents of the Constitution:

3 of 3 people found the following review helpful. Best volume to explain Federalist and Anti-Federalist thought
By A. D. Liechty
Somewhat densely packed, this is the scholarly, definitive view of the thinking of both groups debating the ratification of the Constitution. In explaining what the Anti-Federalists thought he goes into great depth on the Federalists too. New scholarship, and better writing styles by more current authors, will supplement what Storing wrote in this introduction to the three volume collected Anti-federalist writings. In one slim paperback.

Awesome book to supplement the Anti-federalist book by Storing. It clearly sorts out the positions of the Anti-federalists and the counter arguments of the Federalist.

The Anti-Federalists, in Herbert J. Storing's view, are somewhat paradoxically entitled to be counted among the Founding Fathers and to share in the honor and study devoted to the founding. "If the foundations of the American polity was laid by the Federalists," he writes, "the Anti-Federalist reservations echo through American history; and it is in the dialogue, not merely in the Federalist victory, that the country's principles are to be discovered." It was largely through their efforts, he reminds us, that the Constitution was so quickly amended to include a bill of rights. Storing here offers a brilliant introduction to the thought and principles of the Anti-Federalists as they were understood by themselves and by other men and women of their time. His comprehensive exposition restores to our understanding the Anti-Federalist share in the founding its effect on some of the enduring themes and tensions of American political life. The concern with big government and infringement of personal liberty one finds in the writings of these neglected Founders strikes a remarkably timely note.
