Geza Vermes : Who's Who in the Age of Jesus before purchasing it in order to gauge whether or not it would be worth my time, and all praised Who's Who in the Age of Jesus:

2 of 2 people found the following review helpful. An important book on the age of Jesus, now available on KindleBy Marius Gabriell have this book in its original hardback edition, but I bought the Kindle version as well to have as a handy reference. My own historical novel The Testament Of Marcellus is set in the period of Jesus, and I found myself turning again and again to Vermes' balanced, wise judgements in forming my own portraits of Jesus, Pilate, Herod and

other New Testament figures. This is exactly what it says it is -- a Who's Who, and not a narrative. The personalities of the age of Jesus are set out in alphabetical order, so that each can be looked up. As usual, Vermes confines himself to analyzing contemporary sources and avoids the temptation to fill out the blanks with speculation. Vermes was the foremost authority on the Dead Sea Scrolls, and spent a lifetime studying, translating and publishing them. His knowledge of the literature of the period was unrivalled. That makes this an invaluable reference aid for those interested in the period of the New Testament. Having said that, I also find it fascinating to page through the book moving from reference to reference. Highly recommended. 0 of 0 people found the following review helpful. Great read and resource
By S. Edwin Rufener This is an invaluable piece of scholarship from a serious historian for reference or for reading. In alphabetical order, Vermes offers a brief (although he treats some in more detail) biographical summary pertaining to individuals of significance in Jesus' context. This is a great resource for any individual (trained or otherwise) who desires to have an overview of Jesus' religious and secular contemporaries and have a more thorough understanding of Jesus' cultural backdrop. 0 of 0 people found the following review helpful. A great deal of information here
By Bikepoet A great deal of information here; in focusing on these people, Vermes gives us a particularly sharp view of the world that Jesus lived in. The way that it is arranged, alphabetically, makes for easy, quick use as a reference.

An enlightening journey through the ancient world from "the greatest Jesus scholar of his generation" (The Sunday Telegraph) Though the New Testament gospels are some of the most extraordinary documents ever written, the picture they provide of Jesus's world is a very partial one. This remarkable work paints a comprehensive and colorful picture of the world that Jesus knew. From detailed, convincing portraits of John the Baptist, Pontius Pilate, Herod, Jesus himself, and other key figures, to the Jewish and Hellenistic leaders often ignored in scripture, *Who's Who in the Age of Jesus* is a critical, in-depth look at one of the most tumultuous eras in human history. * Fully illustrated

About the Author Geza Vermes's pioneering work on the Dead Sea Scrolls and the historical Jesus led to his appointment as the first professor of Jewish studies at Oxford University, where he is now professor emeritus. He is the author of several books, including *The Authentic Gospel of Jesus*.
From AudioFile This fine work will be highly appealing to readers interested in the history of the Bible or the early church, but will be less appealing to others-- despite Patrick Lawlor's clear and focused delivery. Lawlor handles both the author's prose style and the work's many foreign names and terms smoothly. The difficulty comes from the structure of the presentation. As a reference that recounts the biographies of key figures surrounding the life of Jesus--in alphabetical order--this book is fascinating, but overwhelming. It is impossible to select the figure whose life one hears, and the very cross-referencing that would make it useful for reference makes it repetitive for listening. G.T.B.
