Cory O'Brien : Zeus Grants Stupid Wishes: A No-Bullshit Guide to World Mythology before purchasing it in order to gage whether or not it would be worth my time, and all praised Zeus Grants Stupid Wishes: A No-Bullshit Guide to World Mythology:

14 of 14 people found the following review helpful. Pure Genius!!!By S. LehnertNo really, this is the most epic of books I've ever read. I laughed myself into an asthma attack it was so awesome. It puts a new perspective on a great subject and gives these myths an edgier more modern spin. Plus, the lessons learned at the end of each myth is priceless. I highly recommend this to anyone with a sense of humor and a passion for mythology.18 of 19 people found the following review helpful. Highly RecommendBy P. TalleyI have read a lot of mythology in my time, and eventually stopped because everyone took it so overly seriously. This is not that. It is a brilliant, funny, pop-culture filled tome of some of the most insane and genuinely funny writing I have ever had the pleasure of reading. Some personal favorite section titles: "King Midas Is: GOLDFINGER", "Ra and Sekhmet, or: How Beer Saved the Universe", and "Local Father Discovers Immortality with This One Weird Tip!".Cory O'Brien has struck gold with this wonderful book, and I certainly hope more people buy it and read it, and read every part of it.0 of 0 people found the following review helpful. I absolutely love this bookBy JacquI absolutely love this book. I've read a decent amount of mythology, including Greek, Hindu, Norse, Egyptian, etc. This pulls together modern views of just how messed up some of these myths were, but also teach us how we can apply some of these morals and stories to modern life. (I mean, Zeus couldn't keep it in his pants... everyone's gotta know someone like that). Essentially it's a very good read. Obviously, in consideration of what these myths entail, there will be violence and sexual things, but that's normal. Just enjoy the read, it's a great and entertaining book. It turns even the most uninteresting myths into entertaining and easy to comprehend spectacles.

From the creator of Myths Retold comes a hilarious collection of Greek, Norse, Chinese and even Sumerian myths retold in their purest, bawdiest forms!All our lives, weve been fed watered-down, PC versions of the classic myths. In reality, mythology is more screwed up than a schizophrenic shaman doing hits of unidentifiedwait, it all makes sense now. In Zeus Grants Stupid Wishes, Cory OBrien, creator of Myths RETOLD!, sets the stories straight. These are rude, crude, totally sacred texts told the way they were meant to be told: loudly, and with lots of four-letter words.Did you know?Cronus liked to eat babies.Narcissus probably should have just learned to masturbate.Odin got construction discounts with bestiality.Isis had bad taste in jewelry.Ganesh was the very definition of an unplanned pregnancy.And Abraham was totally cool about stabbing his kid in the face.Still skeptical? Here are a few more gems to consider: Zeus once stuffed an unborn fetus inside his thigh to save its life after he exploded its mother by being too good in bed. The entire Egyptian universe was saved because Sekhmet just got too hammered to keep murdering everyone. The Hindu universe is run by a married couple who only stop murdering in order to throw sweet dance partieson the corpses of their enemies. The Norse goddess Freyja once consented to a four-dwarf gangbang in exchange for one shiny necklace.And theres more dysfunctional goodness where that came from.

"Blessed with the drinking tolerance of Bacchus and the wisdom of Minerva, OBrien has compiled some of the best of the best in the realm of sarcastic myth telling with his book Zeus Grants Stupid Wishes: A No Bull-Shit Guide to World Mythology." --Fanboynation.com"I was giggling by the first page and full blown LOLing by the first myth. Its really that funny. With chapter titles like Cronus Likes To Eat Babies, Abraham Is Totally Cool About Stabbing His Kid in the Face, and Odin Gets Construction Discounts with Bestiality, you cant help but want to read these retold myths, whether it be from morbid curiosity or a dire need to know what this guy could possibly be getting at with these titles." --Electricfeast.com"O'Brien's writing is gruff, hilarious...but there's no doubt that he's thoroughly researched his topics. His candor likens to a tirade of Liz Lemon's deranged ex-boyfriend,Dennis Duffy of 30 Rock, had his skull contained a well-read brain." --ChicagoistAbout the AuthorCory OBrienis a word-wizard and technohipster of the first degree and the creator of Myths Retold! (BetterMyths.com), as well as the author of Zeus Grants Stupid Wishes and George Washington is Cash Money. He reads and writes mythology, science fiction, and computer code. He has camped with gypsies, juggled for food, and driven across the country in a car powered by vegetable oil. Now he lives in Chicago, where he recently graduated with an MFA in writing from the School of the Art Institute of Chicago. Cory's dream is to one day travel to Mars, or at least to own a jacket made entirely of pockets.
